TRAINING BULLETIN

The WRAP Cart

The WRAP Cart is designed to facilitate the safe transport of a subject who is secured in a WRAP maximum restraint device. It can be used to safely move the restrained subject throughout different areas of the facility, while adhering to the policies outlined in Addendum F.

A minimum of four (4) deputies should be used to lift and lower a subject who is secured in a WRAP maximum restraint device. A deputy should be positioned on each side of the subject's upper body, lifting the subject by supporting the upper arms and shoulders. A deputy should be positioned on each side of the subject's legs and lift utilizing the handles on the leg restraint. The deputies should lift in unison using their legs (not backs) to avoid injury.
