

SDSD Detention Services Bureau—San Diego Central Jail Green Sheet

DATE:	March 4, 2022
NUMBER:	M.5.C.1
SUBJECT:	MEDICAL EMERGENCIES – CENTRAL COMMAND CENTER (CCC) RESPONSE

PROCEDURE

In all instances where a "Person-Down" call is initiated, the Central Command Center (CCC) will direct a vacant incarcerated person elevator to the 3rd floor. The elevator shall remain on the 3rd floor to facilitate the expeditious response of medical personnel and equipment to the affected location.

A 3rd floor deputy must respond with medical personnel in the incarcerated person elevator from the 3rd floor to the affected location. The movement of medical personnel in these types of emergencies shall maintain top priority over all other calls for incarcerated person elevator services.

CCC will maintain emergency radio traffic during a medical emergency and may be requested to initiate a 911 call.

CCC will direct a vacant incarcerated person elevator to the 1st floor for the expeditious response of outside emergency medical personnel (e.g. fire department personnel, EMT's) to the affected location.

Once all outside emergency medical personnel and/or facility medical personnel have arrived at the location of the medically distressed incarcerated person, CCC will maintain a vacant incarcerated person elevator at that floor for expeditious movement of the incarcerated person and medical personnel to the 3rd floor for treatment or the 1st floor for transport.
