Enforcement of Governor's Executive Order and County Public Health Order

All individuals must follow the Governor's Executive order to stay home, except as needed to obtain or perform the authorized activities. The local health order includes additional prohibitions that must be followed on top of the state requirement. The local order may be enforced when someone is engaging in an activity that is authorized by the state order, but they are not acting in compliance with the local order.

Violations of *either order* are enforceable under Government Code Section 8665. Government Code Section 8665 provides that any person who violates any of the provisions of the California Emergency Services Act or who refuses or willfully neglects to obey any lawful order or regulation promulgated or issued as provided in the Act, shall be guilty of a misdemeanor and, upon conviction thereof, shall be punishable by a fine of not to exceed one thousand dollars (\$1,000) or by imprisonment for not to exceed six months or by both such fine and imprisonment.

Additionally, when encountering a group that is in violation of an order, deputies are encouraged to use their discretion related to officer safety and their ability to manage the situation. If the group is involved in an unauthorized organized meeting and the group begins to flee or disperse, deputies should attempt to detain and cite the organizer(s) to prevent future violations. The goal is to conduct enforcement which will deter future violations or dampen the public interest in holding gatherings in violation of the orders.
